BIGAMY, RUM AND SUICIDE.

The Strange Life and Death of a Kentucky Farmer.

HE DIED AFTER A DEBAUCH.

Living, He Had Two Wives and a Paramour, and Paid \$50 for a Fourth Woman.

Special to the Post-Dispatch.
LOUISVILLE, Ky., April 11.—Fred Welmer, a well-to-do farmer of Woodford County, sold his tobacco crop in this city Monday, and began drinking hard in a saloon, where he made his headquarters. He declared he wanted a wife. He was lonely since his wife died a few years ago, he said, and would pay \$50 to any one who would furnish him with the right sort of a woman.

Two hackmen in the resort took his proposition, and in half an hour introduced him to Effie Cannon, a domestic employed in a fashionable boarding house. The whole party was driven in a hack to Jeffersonville, Ind., where the marriage was performed. They then returned to this city, where Welmer paid the men \$50 for his wife and \$30 back hire. He found he was too late for the train and hired the hackmen to drive him and his wife to their home near Versailles, fifty miles away. They left at night well supplied with liquor refreshments, expecting to reach Versailles early next morning.

To-day a dispatch from Versailles says that Welmer's dead body was found on the banks of the spring this morning, with a pistol clutched in his hand. He had committed suicide. His paramour, a Louisville experience he was a total abstainer. The testimony at the coroner's inquest showed that Welmer had a wife and three daughters at Ripley, O., another wife in Bracken County, and a son and daughter with whom he had been living for a year.

BULLET IN HIS HEAD.

Married Only a Month Ago and Weary of Life.

Benjamin Frank Isaacs, who was married only a month ago, shot himself in the temple a little before 6 o'clock this morning at his home, 4154 Westminster place. He will probably die.

Isaacs is 27 years old, and has been employed by the Charles Darnheim Paper Co., at 214 North Broadway. He was given a leave of absence in March to go to Pine Bluff to marry a popular young lady of that city. His employees loaned him a small sum of money at that time and he has not since returned to work.

This morning, while his wife was attending to her household duties in another room, she heard a pistol shot and rushed to the bedroom, found her husband stretched upon the floor with a smoking revolver in his hand and a bullet-hole in the right side of his head. He was unconscious when she reached him.

Dr. A. V. L. Brokaw and J. A. Hackley were called in and worked for several hours over the young man. At noon they said there was very little chance for his recovery. The only reason anyone can give for the action is that when he was married, he bought a lot of furniture on the installment plan and not having the money to meet the last payment, was threatened with foreclosure. It is said that the furniture people were to take the furniture from him this afternoon, and that after his efforts to raise funds had met with failure, he became discouraged and shot himself.

He is a son of J. L. Isaacs, the Olive street wall paper man.

EMPTIED HIS REVOLVER.

Henry H. Dammer Blows Out His Brains While Despondent.

Herman H. Dammer, a bartender, committed suicide in his room at 108 Wash. st. Wednesday night by shooting. The body was found by Mrs. Lizette Hummert, who keeps an intelligence office at that address.

Mr. Dammer was a man of about 40 years, and was found lying on the floor dead, with a pistol by his side. He had a peculiarly horrible appearance, the features entirely obscured by matted hair and stains, matting the hair over the face. There was a large hole in the right breast, and a large piece of the shirt had been torn away, having been fired by the powder. There were blood spots all over the shirt, and several small pools of blood about the head.

The deceased was a widower, whether with children is not known. He had been married to Mrs. Hummert sixteen months. He had been troubled with inflammatory rheumatism, which caused him much pain without whom drink creates despondency, though of a jovial disposition when sober. He had been drinking freely for five or six days and was in a state of despondency, and either of his revolver was in the right breast and one in the right temple.

The strange feature of the affair is that no one heard the shot. Dammer is said to have been a brother of Charles, in the city. The deceased was a man of 40 years, and was found lying on the floor dead, with a pistol by his side. The body was removed to the morgue and an inquest was held. It was held by the coroner at 11 o'clock.

FIFTY IN JAIL.

Rumored Arrest of Spanish Officials at Havana.

Key West, Fla., April 11.—Pity was put in jail. It is reported that a number of sympathizers with the Cuban cause, who were arrested at Key West, Fla., and carried to Havana, are being held in the city. The Spanish Government have been removed and turned over to the United States.

BURGLAR HIS BED ROOM.

C. M. Skinner's Midnight Encounter With a Gentlemanly Robber.

C. M. Skinner, of the firm of Buxton & Skinner, 25 Chestnut street, has a beautiful home in Webster Park. Early Wednesday morning he was awakened by the sounds of someone in his room. The moonlight was streaming through the partly closed blinds, casting mysterious shadows about the room. He was about to fall off to sleep again, when he distinctly saw the door to a closet in the room open and the form of a man become visible. In his half asleep condition, his mind went back to fairy tales he had read of ghosts, and before he knew what he was doing he had sprung out of bed and turned on the electric light.

His guest proved to be a tall, fashionably attired young man with a black-brimmed "Fedora" hat and thick-toed shaped tan shoes. The visitor boldly stepped forward, his hands in his pockets, and with a look of cool indifference, he said to Skinner: "Stand back, sir, or I will strike you."

Then Mr. Skinner realized the situation. He stepped back and the stylish intruder re-entered the room and closed the door. "I don't know whether you will find any more of these sort of things," said Mr. Skinner.

"Hold on, my young friend, what do you want?" asked Mr. Skinner, growing more bold. "I want money and I want it badly," he said.

Then he emptied 35 cents out of one of the pockets of Mr. Skinner's "every-day" vest. "Fah, this won't do me any good. I need a couple of dollars," said he.

FOR ACTIVE PROSECUTION.

Mass Meeting Called to Take Up the Detroit Plan.

PROMINENT MEN TAKE HOLD.

Poor to Be Aided to Help Themselves by a Form of Charity Which Will Not Sacrifice Pride.

Steps are being taken to put the Detroit plan into operation in St. Louis. A convention for the purpose will be held Thursday, April 13, at Chatsworth Hall, Seventeenth and Olive streets. It has been called by prominent citizens of St. Louis.

The refusal of Mayor Walbridge to move in the matter in any way, although entirely in favor of the plan, inducing it heartily and offering the use of property of his own, has left no other course open to those gentlemen who had seen in it a practical solution of the problem of the unemployed, than to take the matter in hand themselves. They have therefore taken the first step toward the realization of the project and will leave nothing undone to push it to completion.

These gentlemen include Marcus Beauchamp, one of the first to respond to the invitation of the Post-Dispatch for tenders of the use of vacant property for the purpose; Adnan Beck, the well known real estate agent, who was one of the most enthusiastic supporters of the idea; John Greth, of Greth & Co., real estate agents; and a number of other gentlemen who have joined the present movement.

The call issued by these gentlemen is in these words: "We, the undersigned, citizens of St. Louis, believing the so-called 'Detroit plan' to be a just and feasible way of helping the deserving poor, hereby invite our fellow-citizens to join with us in a mass convention, to be held at Chatsworth Hall, Seventeenth and Olive streets, on the evening of Thursday, April 13, at 8 o'clock, for the purpose of putting a similar plan into practical operation in this city. And to the end that such convention may be a success, we earnestly request the press and the public to give all convenient publicity to this announcement."

This call was issued Thursday morning by the gentlemen mentioned. It is the first time the agitation of the matter by the St. Louis citizens has been made public.

NICARAGUA SILENT.

And Washington is Worried Over the Outcome.

Special to the Post-Dispatch.

WASHINGTON, D. C., April 11.—A crisis in the Nicaragua trouble is fast approaching, and the administration is becoming very uneasy over the uncertainty as to what Great Britain will do to carry out her ultimatum.

Nicaragua is given until Tuesday next to pay the indemnity of \$1,500 demanded for the capture of the American ship, the *Albatross*, and the capture of the American ship, the *Albatross*, and the capture of the American ship, the *Albatross*.

The United States could not afford to stand idly by and witness such a violation of the rights of her citizens. The President is understood to be puzzled as to what stand this Government should assume in the event of any of these complications arising. Nicaragua, not having any information of the eight conditions, is most anxious to get the matter settled as soon as possible.

The situation is one that may call for some aggressive action on the part of the United States. Cholera Invades the Land of the Chrysanthemum.

TEN DEAD IN TWELVE DAYS.

The Plague Was Imported From China, and May Be Spread by Returning Troops.

Special to the Post-Dispatch.

VICTORIA, B. C., April 11.—Mail advices by the steamer *Empress of Japan*, which arrived here to-day, warn quarantine officers of the outbreak of genuine cholera in Southern Japan, with ten deaths at the Naval Station at Moji in twelve days.

The disease was evidently imported from China and is believed to be prevalent at Hong Kong, although an attempt is being made to conceal the fact for fear that the port will be quarantined and always objected to for the first time in this country. It was permitted this morning to have my own way in the selection of a seat in the dining room. The head waiter actually asked me if the seat I wanted was not a seat of honor. I said it was not, and he said it was not a seat of honor. I said it was not a seat of honor. I said it was not a seat of honor.

Monroe Cravens will contest the seat of
George Sippel, who, on the face of the re-
turns, was elected to the House of Delegates
by a plurality of ninety-six in the Fifteenth
ward.

Cravens is a negro who has a coal yard
near Twelfth and Morgan and a saloon op-
posite. In the primary election he defeated
his white Republican opponent hands down.
George Sippel was the Democratic nominee.
Sippel received 68 votes while Cravens
received 66—according to the returns. But
in the same ward the highest Democratic
vote for Councilman was 54, while the high-
est Republican vote for Councilman was 55.
Cravens concedes that race prejudice
may have lost him a few votes, but he
insists that he does not believe he was
slighted in this wholesale manner by fair
measures.

All the charges made by Cravens are sub-
stantiated by the affidavits of election of-
ficers and men who were at the polls. In
the Ninety-second Precinct there was trou-
ble all day, which culminated in an alleged
repeater being shot. This man, whose
name is George Frislag, was indicted for
murder by entering the polling booth and
knocking down the Republican challenger,
Miles Green. Green is of the opinion that
this was done in furtherance of a deliberate
plan of wholesale repeater, the idea being
to deter the challengers from doing duty.
It had that effect. Frislag, who is bet-
ter known as "Sausage" and "Miles" and
Green, after his early morning experience,
was afraid to offer marked opposition to
repeater voters, and he was not around.
Frislag does not live in the ward, and
clearly had no business in the polling
place at all, nevertheless he was there
at intervals several times during the day. He
lives at 142 North Twentieth street, which
is in the Fourth ward. He was coming out
of the polling place late in the evening
when the shooting occurred, and he is one
of the men who are given in the affidavit of
H. Henderson, who was yesterday released
on bail.

One of the Republican judges refused to
sign the returns because at one precinct
ballots improperly marked were counted
for Sippel. Greater weight is given to
the charges, too, than at least one of those
who substantiate them voted for Sippel
out of friendship. The charges of repeater
and intimidation from the Eighty-eighth
and Ninety-first precincts were if anything
more outrageous than those in the First
ward.

The outrageous work done by repeaters
in the Eighty-eighth Precinct is best told
in the sworn statements of Theodore Wash-
ington and Wm. Wynn, Republican judge
and challenger in that precinct. The indec-
ent was sent up from the First and Sec-
ond wards in wagons and carriages to the
polling place at 1247 Franklin avenue
was surrounded by them all day long. The
trick marking of the ballots was done by
several men, and according to the affi-
davit of Judge and challenger, the indec-
ent was in the wagon and carriage, and
in a position to know, the Republican judges
acted in harmony with the Democrats to
encompass the defeat of Cravens. The
sworn statements are as follows:

turns. On the morning of the election, 923 Pro-
testant when Monroe Cravens drove up. I went to
meet him. He was in a buggy. I saw him go to the
polling place. I heard he had knocked down F.
Miles Green, the Republican challenger, and had
knocked down two or three times. He does not live in the
Fifteenth ward. I called on a policeman to arrest
him. He refused. The name and began shouting
and walked away. Then Frislag came up to me,
and shot at me. I do not know the policeman's
name, but he was with Frislag. Billy Hogan,
who arrested me after the shooting.

Notary Public.

My commission expires January 5, 1896.

FOR A WHOLESALE BUILDING.

Southeast Corner of Seventh and Elm

Sold at \$1,000 per Foot.

It was reported on the street Thursday
that the southeast corner of Seventh and
Elm street, at present occupied by a
two-story structure, had been sold to a
local manufacturer for \$1,000 a front foot,
based on the Elm street frontage. Ed Wolf
of M. A. Wolf & Company has control of
the property and for some time past has
been negotiating its sale with several per-
sons.

A Jacob, one of the firm, when seen
said that the sale was about closed and
that improvement in the shape of an eight-
story building would be made. He declined
to give the name of the purchaser until
the deeds of transfer had been filed in the
Recorder's office, which, he said, would not
be done before next week.

The property has a frontage of about 75
feet on Elm street and extends back, adjoin-
ing Charles Siffel's property on Clark ave-
nue. The construction of the proposed elec-
tric freight railway, as announced in last
evening's Post-Dispatch will give the oc-
cupant of the proposed building ample rail-
road facilities.

There is quite a boom in the vicinity for
business property. Mr. Siffel in a month or
two will let the contract for the erection of
an eight-story building on his site and other
property, as being proposed. Much de-
pends upon the action of the Municipal
Assembly regarding the proposed electric
freight railway, as values will be enhanced at
least 10 per cent by its operation. Mr. Siffel is
negotiating with three firms for the lease of
his new building, and he will close with
one of them as soon as the question of
railroad facilities is definitely settled.

The property at Seventh and Elm street
will be improved with a stone-brick building
of the stone combustion plan, not unlike
those composing the Cupples block on
Spruce street.

new contracts are reported awarded: To C.

CROSSING SHIDAR PASS.
Brilliant Exploit of British Forces in Chal.

CALCUTTA, April 11.—A dispatch from Simla dated April 10, says that Col. Kelly, the Commander of the British forces, which have been attempting to reach Chitral from Gilgit since May 25, has succeeded in crossing the Shidar Pass and was about sixty miles from Chitral on April 7. The march of the troops was most arduous and brilliant military exploit. The Pass is 12,000 feet high and is impassable to beasts of burden. Consequently the pioneers had to carry the field and staff guns during the last seven miles of the march through deep snow and with weather intensely cold. The troops suffered in many places from frost bite. With these adverse conditions forward to Simla, enemy was in position twenty miles and from the force commanded by Col. Kelly and an engagement was expected.

ANOTHER SIMPLE TALE.
But True of the Only McNeils.

My friend, Jack Gibson, just in town, came hunting me with words of mine: "His eyes I thought looked rather green; "His nose, old chap, to woe, old Kate! She's waited for you—good as gold. And then he muttered, that, too late, He'd found he had been cheated out of me."

"I'm broke, old man! That's what I am— "I went to Colorado's hills. "Stop! have you got a set of my dream. "I'm subject to the minor chills? "No money! Not a copper! Not a bit! "I can't ask any girl to wed. "I'm awful sorry now I went. "He sobbed, and hung his shaggy head. "I love you, Kate, you know I do. "From obligations that you make. "I've got a job of work, 'tis true. "But I'm a poor unlucky devil. "Get out! 'Tis lucky, 'tis a gift. "In our town here we've got a man. "He'll make a home for you and Kate. "Cheap—on his great installment plan. "Work hard, and say you'll never make. "From obligations that you make. "Pay for your purchases each week. "I'll have you nice home I'll assure. "My wife and I did just the same. "Get married right away—you must! "There's a man in McNeils' name. "There's luck and fortune in his train."

VEAL CHEAPER THAN BEEF.

One Redempting Feature of the Rise in Meat Prices.

COMBINE REPORTS UNTRUE.

The Bovine Maternal in Jumping Over Luna Leaves Her Offspring Behind to Benefit Mankind.

And the cow jumped over the moon.

That is to say, beef is now higher than it has been in the recollection of dealers since war times.

It was stated Tuesday by the butchers that the rise in beef, as well as in mutton, would continue until July 1. At the large packing-houses of this city this statement is confirmed. It is in case of submitting until the warm weather makes one feel that one doesn't care for meat, anyhow, or else doing without it entirely.

In explaining the sharp advance one butcher, in Tuesday's Post-Dispatch, mentioned a corner in the market. Others, however, in the recollection of dealers since war times.

It is the result of a hard winter and the droughts that caused such suffering, even to humans, in the great Northwest, said C. A. Cox, of Cox & Gordon. "You know food was being shipped to the people of that section to save them from starving. Under such circumstances the cattle had little choice but to eat what was offered them, and were very low, and cattle feeders became disgusted. Cattle were being shipped to the market, but the feeders were not holding back their cattle, for the simple reason that they have none to hold back. In my opinion the advance will continue until warm weather. What we call grass cattle will be late this year, because of the failure of pasture. I have heard nothing of any combine."

There is no combine," said G. A. Morrison of Swift Bros. "Anyone can go into the market and purchase on equal terms with any of the other large concerns, except that we may have the advantage in purchasing at the lowest prices. The matter is that prices have been so low hitherto that cattle feeders have been encouraged to purchase at the lowest prices. The advance will continue until warm weather. What we call grass cattle will be late this year, because of the failure of pasture. I have heard nothing of any combine."

THROWN FROM HIS WAGON.

Albert Busch's Attempt to Recover a Lost Line Kills Him.

Albert Busch was thrown from his wagon at De Soto avenue and Twentieth street at 6:45 o'clock Thursday morning, and instantly killed. Busch was employed as driver of a dirt wagon by Martin Durkin, contractor, 2104 College avenue. Busch was in his way for his first load. As he turned into Twentieth street from College avenue, going south, he lost one of the reins. He was seated on the floor of the wagon, his feet resting on the tongue. Leaning over, he attempted to recover the line. The horses took fright and plunged forward, away from the wagon. Busch was thrown from the wagon, his head striking the stone covering of the sewer built at the north-east corner of the intersection of Twentieth street. The team continued its flight, but was stopped a block further south.

The team was the first of a long string coming south on Twentieth street. When the other wagons reached Busch he was lying on his back, his head broken. His face was battered almost past recognition. The body was removed to his home at Second and Argonne streets.

Talent of the City to Be Exhibited
Under New Auspices.

WORKS TO BE EXHIBITED.

Effort Making by Local Painters and
Sculptors to Establish an Annual
Display of Mound City Talent.

For the first time in the history of the Artists' Guild of St. Louis a great concerted effort is being made by them to bring before the public their works.

HALECY C. IVES.
Since inaugurated a similar spread of its artists' work; Philadelphia and Rochester each have one, and now the artists of St. Louis come to the fore and establish a "salon" here which, if its initial setting proves a success, will be made a permanent one.

EDWARD M. CAMPBELL.
Several of the most prominent society ladies of the city will act as patronesses of the affair. Mrs. Halsey C. Ives, Mrs. Gilbert Chapman and others. The galleries will be beautifully decorated with potted plants, and an orchestra will render choice selections. The opening night will be practically "vanishing day," not such as it was in the early Parisian salons, when the painters vanished their pictures, a thing which has since come into disuse on account of

PAUL CORNOYER.
The attending crowds. But "vanishing day" it will be in its commemorative sense—a gala day. As the Artists' and Sculptors' Association embraces the artistic element of the Artists' Guild and all the professional painters in town, a rare treat is promised. Pictures will be shown which

have won for their authors laurels in French and British salons. John Wilton Cunningham will be seated with a number of beautiful chief among which is "Suburban," a charming country garden where

Beer Boycott Bow.

KILLED A BANKER.
Senator Goebel Shoots Capitalist Sanford at Covington, Ky.

COVINGTON, Ky., April 11.—Senator Goebel has just shot and killed Banker Sanford. The greatest excitement prevails, as the men are two of the most prominent citizens of the city, and are among the leading ones of Kentucky.

AN OLD FEUD had existed between State Senator Goebel and personal and political friend of Secretary Carlisle and John Sanford, President of the Farmers' and Traders' National Bank of this place. They met on the street while returning from lunch about 1 o'clock when Goebel opened fire. He shot twice, both shots taking effect.

EYE-WITNESSES say that Sanford was killed by the first shot. He was carried into the First National Bank building and medical aid summoned. While Senator Goebel gave himself up. A large crowd soon assembled. Threats were made for the shooting of the Senator. The excitement spread all over the city. While the feud is an old one, the immediate cause of the shooting is said to be due to the Goebel road law. Sanford is President and owner of several turnpikes.

Senator Goebel had a bill passed reducing the tolls, which made the Senator popular with the people, but was bad for the turnpike stock. Sanford is reported to have used severe terms in talking about Senator Goebel and his law. Shortly after 5 o'clock the physicians reported Sanford still alive, but they thought it was doubtful about him surviving another hour, and said there was no hope whatever of his recovery.

Sanford died at 5:30. Later reports state that he fired first, his shot going through Goebel's coat. Goebel returned the fire, shooting Sanford through the head. Goebel's friends justify his defense. They say that Sanford was a threat of revenge, the excitement is still at fever heat.

GENERAL CONSTRUCTION.
The outer case of all our refrigerators and ice chests is made of oak, thoroughly dried in the open air, and afterwards kiln-dried.

The panels are grooved into the frame, which are mortised together in a very substantial manner, making a perfectly tight cabinet.

The inner case is made of kiln-dried, closely matched and odorless wood, lined with zinc and thoroughly secured to the frame work.

The space between the inner and outer cases is insulated with the three best non-conductors known, viz.: dead air space, charcoal paper and mineral wool.

Both chambers are lined with zinc. The floor of the storage chamber is on a level with the bottom of the opening in it.

The shelves in the storage chamber are made of wire cloth, woven upon a substantial iron frame, and extruded after being made.

The hardware is genuine bronze, of new and elegant design, made expressly for us.

The goods are finished with the best Wood Fillers and first coatings and finish turpentine varnishes can be obtained, and will stand the test of time and use.

All are mounted upon patent casters which are removed for shipping purposes, and which when placed in position cannot drop out of a level, making a very close joint, a valuable feature of our construction.

CROWDING OUT CHICAGO.
A Movement to Divorce Cook County From Illinois.

SPRINGFIELD, Ill., April 11.—A movement was set on foot by Representative Jones of Green County in the Legislature today, which, if carried out, will practically sever Cook County (Chicago) from the State of Illinois. It was in the form of a joint resolution and provides that the question of giving Cook County a separate government from the balance of the State shall be submitted to a vote of the people.

This amendment provides that on and after January 1, 1896, Cook County shall be governed by a General Assembly composed of 17 Senators and 16 Representatives. Provision is made for division of Cook County into districts and the general election laws of the State shall govern the election of such Senators and Representatives. This General Assembly of Cook County shall pass the laws necessary to administer justice in the county. No tax may be levied on Cook County for use outside of its boundary and Cook County cannot draw money from the State Treasury, but it shall receive its proportionate share of the revenue of the Illinois Central Railroad. Members of the Cook County General Assembly shall only sit with the General Assembly of Illinois during the election of a United States Senator to Congress and during the impeachment of State officers, but can vote on all other matters. The resolution was referred to the Committee on Judiciary.
